

dyson corrale

The straightener with flexing plates that shape to gather hair

Key Features

Enhanced styling, half the damage¹

Flexing manganese copper alloy plates shape to gather your hair, for enhanced styling with less heat.

Reduced frizz, fewer flyaways²

By gathering hair, flexing plates enable shiny, straight results with less heat.

Enhanced styling with cord-free versatility

Up to 30 minutes of cord-free styling³, with the thermal performance of a corded straightener. If you need longer, you can also style in hybrid charge mode, with the magnetic 360° rotating cable.

Intelligent heat control

Integrated sensor system regulates the temperature of the plates 100 times a second.

Suitable for all hair types

Choose from three precise heat settings – 165°C, 185°C and 210°C – to suit your hair type, length and desired style.

Auto-shut off

Automatically shuts off after 10 minutes of inactivity, for added peace of mind.

Ready to style when you are

90% battery charge in just 40 minutes, using the magnetic charging cable or dock. And fully charges in just 70 minutes.

OLED screen and safety lock

Battery level, temperature control and charging status displayed during use. Safety lock secures the heated plates for immediate storage after use.

Charging dock

Stores and charges your Dyson Corrale™ straightener when not in use.

Heat-resistant travel pouch

Safely stores your straightener, with a separate protector for the Flight-ready tag.

Dyson Corrale HS07 Special Edition

SKU:	426145-01
